# Introductie Machtigingen

The screenshot displays the Autodesk Construction Cloud interface. The main window shows a file explorer view titled 'Bestanden' (Files) under the 'DEMO omgeving' (DEMO environment). The left sidebar contains navigation options like 'Bestanden', 'Specificaties', 'Beoordelingen', etc. The main content area shows a folder structure under 'Projectbestanden' (Project files) with subfolders like '00 Published of Goedgekeurd', '01 Coordinatie', and '02 Team architect'. A context menu is open over the folder structure, listing actions such as 'Submap toevoegen', 'Sorteren op', 'Uploaden', and 'Machtigingen' (Permissions). The 'Machtigingen' dialog box is also open, showing a list of users and their assigned permissions. The permissions are categorized into 'Weergeven' (View), 'Bewerken' (Edit), and 'Beheren' (Manage). The 'Weergeven + downloaden' (View + download) permission is selected for the 'Project Member' role.
