### Autodesk Vault Server Requirements

Autodesk Vault supports only 64-bit operating systems.

#### Notes:

1. Autodesk's support for Windows operating systems are synchronized with Microsoft's Mainstream Support End Date. See [Microsoft Lifecycle Support Policy](#) and [Windows 10 Release Information](#) for more details.
2. Microsoft does not support SQL Server 2017 Express edition on Windows 7. SQL Server 2017 Express is installed by Vault Server when a Vault instance of SQL is not found. Using Vault Basic on a Windows 7 operating system requires SQL Server 2014 to be pre-installed.
